Matthew Falzon

Basking Ridge, NJ · mattgfalzon@gmail.com · (908) 574-8552 · `mgfalzon.github.io/portfolio`

Education

University of Maryland   College Park, MD
BS Computer Science *GPA: 3.71*   Aug 2018 - May 2022
Innovation and Entrepreneurship Minor
Alpha Lambda Delta Honor Society

Work Experience

UMD Federal and Global Fellows   College Park, MD
Full Stack Developer   Feb 2020 - Present

- Responsible for developing the program's student portal and administrative tools including managing a MySQL based relational database
- Redesigned the entire front-end for the student portal and admin portal in React.js
- Used PHP to create an API which connects 250 users and 8 administrators with their respective portals, and provides them with the tools they need to partake in the program

SPS Consluting   Remote
Front-End Developer   June 2020 - Aug 2020

- Developed the Blink Resume Progressive Web App (PWA)
- Designed UI and UX then implemented the interface with React.js which connects to a web API using Node.js and communicates with Google Firebase
- Lead a team of three using GitHub for version control

New Providence High School   New Providence, NJ
Animation Instructor   June 2019 - Aug 2019

- Created a curriculum for the class, "Introduction to 3D Animation"
- Taught a 30 student class how to use Blender for modeling, rigging, animation, rendering, compositing and video editing

Skills

Programming Languages:	Java, Python, C, Javascript, HTML/CSS, PHP, SQL, Ruby, OCaml, Rust
Web Development:	React.js, Node.js, Bootstrap, Google Firebase
Data Science:	Numpy, Pandas, Matplotlib, Scikit-learn, Seaborn, Natural Language Toolkit

Projects

Personal Website *React.js*   `https://mgfalzon.github.io/portfolio/`
My JSON based portfolio website which showcases all my projects.

Pokémon Machine Learning Tutorial *Python*   `https://mgfalzon.github.io/pokemon-ml`
A Jupyter Notebook which explores the relationship between pokémon characteristics and win percentage in simulated battles. The notebook predicts pokémon battles with up to 88% accuracy using various machine learning models.

Blackjack *Python*   `https://github.com/mgfalzon/blackjack`
A Blackjack app with a text-based user interface.

Organizations
